

CAPTURING YOUR SURPRISE PROPOSAL

<https://bettybhandari.com>

I'm Betty and I'm a wedding photographer based in Bath in the South-West of the UK. I have photographed over 200 weddings during the last twelve years, all while having two children and running another photography business.

Before every 'I DO' comes a 'YES!' and I have had the pleasure of photographing almost twenty surprise engagement proposals over the years. Deciding to spend the rest of your lives together is an important landmark in a couple's relationship. I want to give you helpful planning tips and then capture the moment for you both to enjoy and relive for years to come.

WELCOME TO MY

WHAT'S INCLUDED

Prices: Surprise proposal in Bath - £345
Surprise proposal outside Bath - £375
(within 25 miles of Bath)

01

Planning Tips

I'm creative, organised and helpful (those are my magic powers) and I really want you to have the most special proposal moment! Therefore I have put together another PDF document with loads of helpful tips on locations, timelines and many other details. You will receive this once you have confirmed the booking.

02

Romantic Couple Portraits

After the proposal I will give you both time to breath and collect yourself. Once you are ready, we will go and do 30 minutes of couple portraits in and around the location we are in.

03

40-50 High Resolution Images

One week after your proposal you will receive the finished images sent to you via a secure online gallery. You can both download the high resolution images as well as share the images with friends and family.

PLANNING TIMELINE

01

Enquire

Tell me your ideas and thoughts on locations and time frame. I can give you loads of useful and creative input.

02

Book

Decide on a date, confirm the booking and pay a 50% deposit. Receive your planning tips guide from me which lists out appropriate locations and tips for planning a timeline.

03

Plan

Get started on planning the details like the location and the timeline of the day. You want to integrate the proposal in a way that is not obvious nor gives it away.

04

On the day

Stay calm and make sure you keep your ring safe. Take your time, there is no rush. After the proposal I will spend 30 minutes taking some couple portraits of you both.

05

After the proposal

I will edit 5 images and send them on the same day so you can use them to announce the proposal to your friends and family.

06

After one week

The rest of the photos will be with you within a week or less. You can download them from a password protected online gallery sent to you via email.

NEXT STEPS

I run two successful photography businesses and get booked up quickly, so it is important that you book your chosen date as soon as possible.

Please note I do not photograph nighttime or candle-lit proposals due to the lack of natural light.
